

# PROJECT PROFILE

## UNIVERSITY OF ARIZONA HONORS VILLAGE

### PROJECT DESCRIPTION

STG Design Architects of Austin Texas, designed the new Honors Village at the University of Arizona in Tucson Arizona. The complex includes student housing, classrooms, wellness center and a parking garage. The village serves honors students attending the university. The developer, American Campus Communities, selected a spray foam roofing system due to its ability to tightly seal all the HVAC risers and other penetrations. The project achieved LEED certification and will have the benefit of less energy consumption resulting in tangible long-term savings.
